

2024 Accuracy

Documented Accuracy in Player Projections

One of the ways we **measure success** is comparing what **direction a player's performance took** during the forecasting season.

The analysis below measures fantasy points per game for the designated period. The focus of this analysis **is to measure our ability in forecasting whether a player would have a better or worse fantasy season than the previous year**. We base this analysis on an indicator called FPI. Fantasy Production Indicator measures a players fantasy contribution based on each At Bat or IP.

Fantastics Correctly Predicted the Fantasy Direction on ~8 out of 10 Hitters in 2024
76%
